Limb Beaver 6 Series

The Limb Beaver 6 Series delivers unmatched cutting width and heavy-duty performance for operators who need to clear more vegetation in less time. Built for skid steers, excavators, and boom mowers, these 72-inch brush and limb-cutting attachments are engineered for high-output work across large and challenging environments.

LB 6

Designed to slice through limbs up to 6 inches in diameter and reach vertical heights of up to 24 feet, the Limb Beaver 6 Series provides exceptional capability for maintaining roadways, right-of-ways, field edges, lakefronts, forestry borders, and expansive overgrown areas.

For increased precision and maneuverability, the 6 Series offers an optional hydraulic swing, allowing operators to position the cutter with accuracy around obstacles and along uneven terrain. With a wider cutting path, rugged build quality, and reliable cutting power, these units are ideal for municipalities, contractors, land-management crews, and anyone who demands efficient, large-scale vegetation control.

6 Foot Limb Trimming & Brush Clearing Attachment

LB 6SS for Skid Steers

- 72 cutting path
- 52 double edge fixed teeth
- Rotor Speed of 3,000 RPM
- Cutting height up to 24 feet
- Weighs 1,500 pounds
- Hydraulic flow of 25 to 50 GPM
- Cuts limbs up to 6 inches in diameter
- Tilt up to 45 degrees below horizontal position
- Offset vertical reach of 74 inches from center
- Offset to horizontal reach of 146 inches
- 90 degree swing from center to right
- Side vertical raised height of 264 inches
- Out front vertical raised height of 288 inches
- All functions operated hydraulically from the cab

LB 6EX for Excavators & Boom Mowers

- 72 cutting path
- 52 double edge fixed teeth
- Rotor speed of 3,000 RPM
- Weighs 550 pounds
- Cutting height determined by excavator/boom mower
- Cuts Limbs up to 6 inches in diameter
- Hydraulic flow of 25 to 50 GPM (high-flow)
- All functions operated hydraulically from the cab
- DO NOT PLACE EXCAVATOR WEIGHT ON HEAD
