## **Twin Disc Mulcher**

The Limb Beaver Twin Disc Mulcher is engineered for operators who demand aggressive cutting power, exceptional control, and reliable performance in heavy vegetation. Designed for skid steers, this mulcher features a 6-foot cutting path and is the result of extensive development, customer collaboration, and rigorous real-world testing.

# TDM

## **6 Foot Limb & Brush Mulcher Attachment**

**For use with Skid Steers.**

### **TDM Specifications**

- 72 inch cutting path (two 36 inch discs)
- Weighs 2,700 pounds
- Motor size of 2x 115cc or 2x 130cc (two motors)
- Radial piston motors
- 2 counter rotation discs
- 3 counter anvils
- Flow range of 35–50 GPM (95-165 HP)
- Minimum flow pressure of 4,000 PSI
- 52 quad-style beaver teeth (26 teeth on each disc)
- Central cutting position
- Front and center debris discharge

Powered by two radial piston motors requiring 35-50 GPM @ 4,000 PSI, the Twin Disc Mulcher delivers high torque even at low RPMs—long after standard hydraulic motors have stopped producing usable power. Its dual counter-rotating discs, combined with three counter anvils, provide fast, efficient material breakdown while maintaining economical tooling and minimal operating costs.

Constructed with high-strength steel throughout, the frame is built to withstand demanding conditions while also controlling debris flow for safer operation. Operators benefit from exceptional visibility, making it easy to see the cutting zone without constant repositioning. The result is a mulcher that produces a consistent, uniform mulch size without reprocessing, boosting productivity and improving finished results.

for Skid Steers

## Applications

- ▲ Encroaching or Overhanging Limb and Brush
- ▲ Farm Fields
- ▲ Trails
  - Snowmobile
  - Side by Side
  - Walking
- ▲ Right of Ways
  - Pipeline
- ▲ Line of Sight
- ▲ Easements
- ▲ Lake Side
- ▲ Creeks and Rivers
- ▲ Golf Courses
- ▲ Hunt Clubs
- ▲ Fence Lines
- ▲ Parks
- ▲ Recreational Areas
- ▲ Forestry Service
